Probe Cap & Adaptor Kit

CARB EVR approved 4" Probe Riser Cap is used to protect tank probes and secure probe or monitoring sensor connections. The easy to operate "T" handle provides a convenient method of removal and replacement.

The 90037 kit includes a 4" nylon cap with 1/2" and 3/8" cable bushing and a 4" composite adaptor.

Design Highlights & Advantages

- Durable nylon construction.
