TITAN ETHANOL BLENDER

- Specifically used for blending ethanol to provide real time in-line mixing
- Controlled by 2 solenoids, which operate the hydraulic control valve to allow exact amounts required
- Comes with 3 streams and 2 spare outlet for future use
- Electrical wiring is all pre-wired and terminated on 2 explosion proof enclosures located on the sides of the blender skid

TITAN ETHANOL BLENDER P&ID

SPECIFICATIONS

- **Dimensions:** 42" x 32" x 90"
- **Weight:** 550 lbs
- **Inlet:** 3" Flange 150#
- **Outlet:** 2" Flange 150#
- **Hydraulic Pump:** 110vac or 230vac
- **Solenoid:** 110vac or 230vac
- **Flow sensor:** 10 to 32 Vdc
- **Max Op Press:** 260 psi
- **Flowrate:** 4 to 92 gal/min
- **Max Viscosity:** 1000 centipoise
- **Typ. Kfactor:** 102.6 pulses/gal
