

Service Station Hardware

7 1/2", 12", & 18" Manholes with Cast Iron Rings

These manholes have a proven track record of trouble-free operation. Their durable construction withstands the heaviest traffic and meets the requirements of a D.O.T. H20 load rating.

Design Highlights & Advantages:

- **Cast Iron Cover and Rings** - EBW's 7 1/2" round manholes have ribbed cast iron covers and cast iron rings to withstand heavy loads and traffic.
- **Colored Cover Options** - EBW's 18" round manholes can be ordered with optional FRC colored covers in standard API color codes. The FRC covers also include a recessed area for optional API color coded identification plates.
- **Heavy Duty Skirts** - EBW's 7 1/2" round manholes have heavy duty cast iron skirts. 12" and 18" round manholes have a 16 gauge welded steel skirt and are available in different depths to fit your needs.
